## Summary

As a Front-end Developer with 2+ years of experience, I have developed a strong proficiency in building web applications. My skills also include SCRUM and Agile methodologies, which I employ to deliver high-quality projects on time.

I am a stress-resistant problem-solver who is committed to providing elegant solutions to complex problems. I approach every project with a communicative and collaborative mindset, ensuring that all stakeholders are informed and involved throughout the development process.

My passion for front-end development stems from my desire to create beautiful and functional user interfaces that provide a seamless user experience. I am always looking to learn and grow in my role as a Front-end Developer and stay up-to-date with the latest industry trends and best practices.

If you are looking for a Front-end Developer who can deliver high-quality work, collaborate effectively with your team, and provide innovative solutions, look no further.

---

## Experience

### Front End Developer

DEV SIT • Kyiv

12/2021 - Present

As a Front-end Developer at DEV SIT, I was responsible for building Chrome extensions, landing pages, PWA web apps. My technical skills in front-end development, including HTML, CSS, ReactJS, Redux, Redux-toolkit, git, npm, AJAX, and Bootstrap, were instrumental in creating visually appealing and responsive web apps that met the needs of our clients. My problem-solving skills and strong communication skills ensured that project requirements were met and exceeded expectations, making me a valuable team member.

#### Key Responsibilities:

- Developed visually appealing and responsive Chrome extensions, landing pages, PWA web apps, and ReactJS web apps using HTML, CSS, ReactJS, Redux, Redux-toolkit, git, npm, AJAX, and Bootstrap.
- Collaborated with designers and other developers to implement UI/UX designs.
- Implemented front-end architecture best practices and coding standards.
- Wrote clean, efficient, and reusable code.
- Integrated with APIs and databases to enable the creation of web apps with dynamic content.
- Troubleshoot and debugged issues as they arose.
- Conducted code reviews and provided feedback to other developers.
- Communicated effectively with project managers and clients to understand and meet project requirements.

#### Skills:

- Strong technical skills in HTML, CSS, ReactJS, Redux, Redux-toolkit, git, npm, AJAX, and Bootstrap.
- Excellent problem-solving skills and attention to detail.
- Strong communication skills and ability to work collaboratively in a team environment.
- Passion for developing visually appealing and responsive web apps.

### Front End Developer

CB • Lviv

12/2020 - 10/2021

As a Front-end Developer at CB, I was responsible for building a web app that aimed to be a constructor for building a

Telegram, WhatsApp, and other bots. My technical skills in front-end development, including ReactJS, Redux, Redux-toolkit, git, npm, and AJAX, were instrumental in creating a user-friendly web app that met the needs of our clients. My ability to organize workflows and manage processes ensured the timely delivery of milestones, making me a valuable team member.

#### Key Responsibilities:

- Developed a web app that aimed to be a constructor for building bots using ReactJS, Redux, Redux-toolkit, git, npm, and AJAX.
- Collaborated with designers and developers to implement UI/UX designs.
- Implemented front-end architecture best practices and coding standards.
- Wrote clean, efficient, and reusable code.
- Integrated with APIs and databases to enable the creation of bots for different messaging platforms.
- Troubleshoot and debugged issues as they arose.
- Conducted code reviews and provided feedback to other developers.
- Managed and maintained project workflows, ensuring timely delivery of milestones.

#### Skills:

- Strong technical skills in ReactJS, Redux, Redux-toolkit, git, npm, and AJAX.
- Excellent problem-solving skills and attention to detail.
- Ability to manage project workflows and prioritize tasks.
- Strong communication skills and ability to work collaboratively in a team environment.
- Passion for developing user-friendly web apps.

### Front-end ReactJS developer

Autoparts | Start-up • Lviv

09/2020 - 10/2020

As a Front-end ReactJS Developer at Autoparts, I was responsible for building and maintaining an online store that sells different parts for automobiles. My technical skills in front-end development, including ReactJS, Redux, Redux-toolkit, git, npm, and MaterialUI, were instrumental in creating a user-friendly online store that met the needs of our customers. My ability to organize workflows and manage processes ensured the timely delivery of milestones, making me a valuable team member.

#### Key Responsibilities:

- Developed and maintained an online store that sells different parts for automobiles using ReactJS, Redux, Redux-toolkit, git, npm, and MaterialUI.
- Collaborated with designers and developers to implement UI/UX designs.
- Implemented front-end architecture best practices and coding standards.
- Wrote clean, efficient, and reusable code.
- Worked with the back-end development team to integrate with APIs and databases.
- Troubleshoot and debugged issues as they arose.
- Conducted code reviews and provided feedback to other developers.
- Managed and maintained project workflows, ensuring timely delivery of milestones.

#### Skills:

- Strong technical skills in ReactJS, Redux, Redux-toolkit, git, npm, and MaterialUI.
- Excellent problem-solving skills and attention to detail.
- Ability to manage project workflows and prioritize tasks.
- Strong communication skills and ability to work collaboratively in a team environment.
- Passion for developing user-friendly online stores.

### ReactJS Engineer

Astomi • Lviv

01/2020 - 03/2020

As a ReactJS Engineer at Astomi, I was responsible for developing and maintaining an online store using ReactJS, Redux, Redux-toolkit, git, and npm. My technical skills in front-end development were crucial in building a user-friendly online

store that met the needs of our customers. My ability to organize workflows and manage processes ensured the timely delivery of milestones, making me a valuable team member.

Key Responsibilities:

- Developed and maintained an online store using ReactJS, Redux, and Redux-toolkit.
- Collaborated with designers and developers to implement UI/UX designs.
- Implemented front-end architecture best practices and coding standards.
- Wrote clean, efficient, and reusable code.
- Worked with the back-end development team to integrate with APIs and databases.
- Troubleshoot and debugged issues as they arose.
- Conducted code reviews and provided feedback to other developers.
- Managed and maintained project workflows, ensuring timely delivery of milestones.

Skills:

- Strong technical skills in ReactJS, Redux, Redux-toolkit, git, and npm.
  - Excellent problem-solving skills and attention to detail.
  - Ability to manage project workflows and prioritize tasks.
  - Strong communication skills and ability to work collaboratively in a team environment.
  - Passion for developing user-friendly online stores.
